STATINTL

MEMORANDUM FOR:

Security Office

I was very much impressed to hear that you recently completed over one hundred thousand miles of air travel during the period of a little over two years, in connection with overseas missions of the Security Office. I know that many of the flights in which you have engaged must have been at considerable personal inconvenience to you and your family. Your faithful devotion to duty in this endeavor is in the best tradition of our service and has been of great value in the support of our operations.

I want to commend you for your spirit and enthusiasm and for your unselfish devotion to duty.
